WORK EXPERIENCE

• Internship as a Front-end Developer at Eyecix Technologies.

During my front-end development internship, I contributed to UI/UX development, translating design mockups into functional web pages using HTML, CSS, JavaScript, jQuery, Bootstrap and mobile-responsive.

I gained experience in bug fixing and optimizing front-end functionality, addressing layout inconsistencies, browser compatibility, and responsiveness. I actively collaborated with designers, back-end developers, and the team to integrate front-end components seamlessly, enhancing my skills and staying updated with industry trends.

• Junior Front-end Developer at Eyecix Technologies.

As a junior front-end developer, my primary responsibilities involve designing and implementing user interfaces using HTML, CSS, jQuery, Bootstrap, JavaScript, mobile-responsive. It is essential to prioritize cross-browser compatibility and responsiveness to deliver a seamless user experience. Collaborating with UX designers and optimizing performance are crucial elements of my role, fostering effective and efficient user interfaces. Continuously learning and seeking feedback will contribute to my growth as a front-end developer.
